INGRAM MICRO®

CLOUD PORTFOLIO

Your comprehensive guide to our participating vendors

Ingram Micro Cloud provides an end-to-end portfolio of cloud services targeting the business needs of SMBs and enterprises worldwide, delivering a one-stop shop for all cloud-related needs. Our portfolio encompasses Ingram Micro Cloud Suites and cloud services from more than 200 market-leading cloud vendors.

Top-tier solutions

Before we add a third-party solution to our portfolio, it goes through Ingram Micro's vetting process, which includes reviews of product maturity, track records, vendor history and stability and more.

Solutions categories:

Platforms: Partners can choose from six platforms to monetize and manage cloud services, ranging from simple to fully customizable. Purchase and provision cloud services immediately using our Cloud Marketplace, sell through your own website using our pre-built, integrated e-commerce store or build your own.

Cloud-Management Services: Includes remote monitoring and management [RMM], remote infrastructure management [RIM], mobile device management [MDM], help desk and other key IT service management solutions needed to run a cloud or MSP business.

Communication and collaboration: Includes hosted email, conferencing, messaging and file sharing, as well as data and voice services such as VoIP and broadband internet connectivity.

Infrastructure: Includes data center, network and virtualization services that provide your customers with IaaS (e.g., compute, storage, public and private clouds, disaster recovery, virtual desktop infrastructure [VDI], web hosting).

Business applications: Includes SaaS solutions for business automation, business intelligence, business services, document management, human resources management, healthcare and productivity.

Security: Includes network and email protection, web filtering, log management, single sign-on and much more to help guard businesses against both external intrusions and unsafe employee behavior from within.

TRANSFORM YOUR BUSINESS WITH CLOUD.
