

# Become a reseller for Google Chrome Enterprise

Google Chrome Enterprise combines Chrome OS and Chrome Browser to enable work in the cloud. Chrome OS is a versatile, cloud-native OS that is secure, easy to use and manage, and provides fast access to cloud apps, regardless of Chrome device or location.

Benefits of a truly cloud-native and modern OS, available today

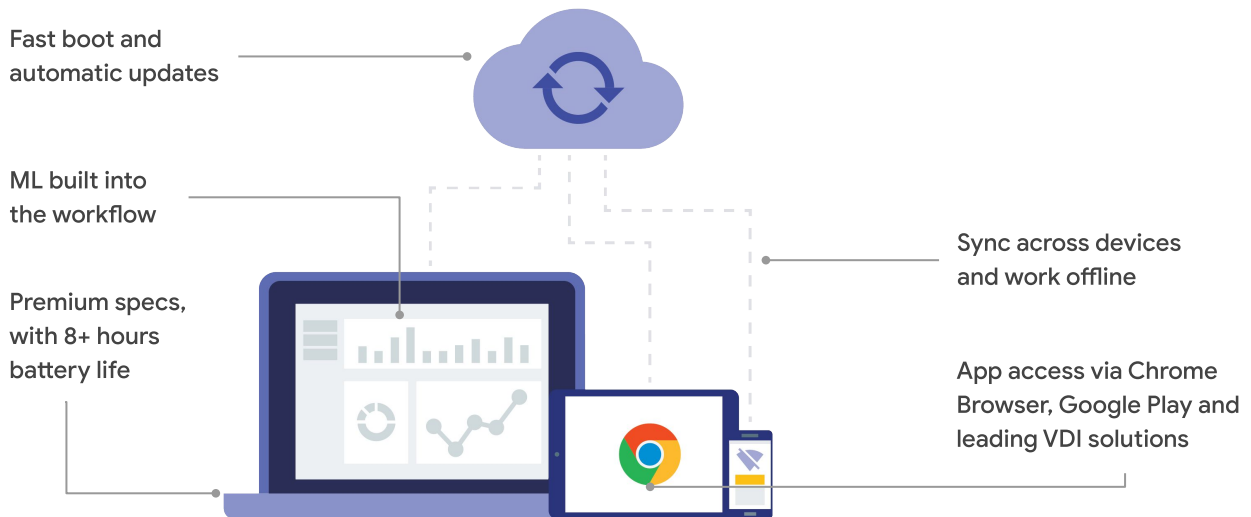

Reduced risk  
of data theft

Seamless  
software and OS  
updates

Remotely  
managed devices

Faster deployment  
without imaging

## Connect your customers to the cloud with Chrome Enterprise

## Build a business with Chrome Enterprise products

- Chromebooks
- Hangout Meet Hardware
- Chrome Enterprise License

## Why resell Google Chrome Enterprise?

Help your customers unlock the enterprise capabilities available with Chrome Enterprise and grow your Google business.

### Land and expand with customers

Chrome Enterprise, including Chrome OS, devices and Browser, can be deployed at small businesses all the way up to large enterprises. Start with Chrome Enterprise for frontline workers then expand to other use cases and grow the infrastructure as your clients grow.

### Create flexible services

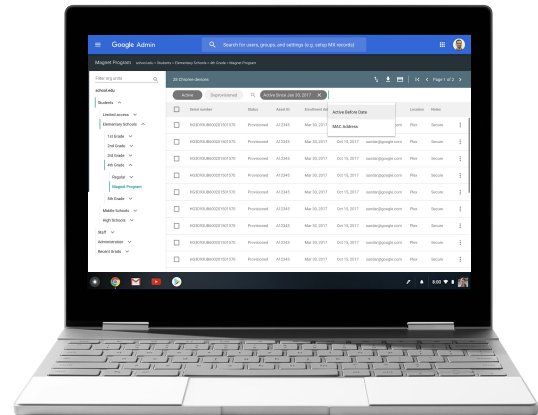

With Chrome Enterprise, you have the flexibility to create services that work with your company and your technical capabilities. Provide IT support, deploy Chrome Browser Enterprise Support or help customers set up a loaner program.

### Bundle with G Suite

Increase your customers' productivity and your margin by selling multiple Google products together. G Suite, Chrome Enterprise and Chrome devices are cloud-first solutions that integrate Drive files and G Suite applications and are all available through distribution partners.

## Resell Chrome Enterprise With Ingram Micro

**At Ingram Micro Cloud,™ we view cloud not just as a single technology, but as a foundational platform to run and drive a whole new way of doing business. By leveraging our platforms and ecosystem, cloud service providers, telecom companies, resellers and enterprises can quickly transform and get up and running in the cloud within minutes, with little to no investment. Our portfolio includes vetted security, communication and collaboration, business applications, cloud management services and infrastructure solutions designed to help clients monetize and manage the entire lifecycle of cloud and digital services, infrastructure and IoT subscriptions.
